SECTION 4: First aid measures	
4.1. Description of first aid measures	
First-aid measures after inhalation	<ul> <li>Assure fresh air breathing. Allow the victim to rest. Obtain medical attention if breathing difficulty persists.</li> </ul>
First-aid measures after skin contact	: Wash with plenty of soap and water. Obtain medical attention if irritation persists.
First-aid measures after eye contact	In case of eye contact, immediately rinse with clean water for 10-15 minutes. Obtain medical attention if pain, blinking or redness persists.
First-aid measures after ingestion	: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Allow the victim to rest.
4.2. Most important symptoms and effect	ts, both acute and delayed
Symptoms/injuries after inhalation	: Not expected to present a significant inhalation hazard under anticipated conditions of normal use.
Symptoms/injuries after skin contact	: Repeated exposure may cause skin dryness or cracking.
Symptoms/injuries after eye contact	: Not expected to present a significant eye contact hazard under anticipated conditions of normal use.
Symptoms/injuries after ingestion	: Ingestion unlikely.
4.3. Indication of any immediate medica	attention and special treatment needed
Advice to physicians: Treat symptomatically.	
SECTION 5: Fire-fighting measures	
5.1. Extinguishing media	
Suitable extinguishing media	: Carbon dioxide. Foam. Water spray. Dry powder.
Unsuitable extinguishing media	: Do not use a heavy water stream.
5.2. Special hazards arising from the su	ostance or mixture
Fire hazard	: Extremely flammable aerosol.
Explosion hazard	: Pressurised container: May burst if heated.
Reactivity in case of fire	: Prevent fire fighting water from entering the environment.
Hazardous decomposition products in case of fire	: Combustion produces toxic gases. Carbon monoxide.
5.3. Advice for firefighters	
Precautionary measures fire	: Do not enter fire area without proper protective equipment, including respiratory protection.
Firefighting instructions	: Exercise caution when fighting any chemical fire. During a fire, projections ignited aerosol that burst under excessive pressure have to be controlled. To avoid overpressure, cool aerosols with water.

SECTION 6: Accidental release me	asures
6.1. Personal precautions, protective of	equipment and emergency procedures
General measures	: Measures to take in the case of crushing or piercing aerosols, causing the leaking of products contained in aerosols. Remove ignition sources. Ventilate area. Do not smoke. Provide local exhaust or general room ventilation. Evacuate and limit access.
6.1.1. For non-emergency personnel	
Emergency procedures	: Do not touch spilled material. Evacuate area.
6.1.2. For emergency responders	
Protective equipment	: Wear recommended personal protective equipment. Provide adequate ventilation. Remove all sources of ignition. Avoid contact with skin and eyes. Do not inhale vapour.
6.2. Environmental precautions	
Notify authorities if liquid enters sewers or pub	lic waters. Prevent entry to sewers and public waters.
6.3. Methods and material for contain	nent and cleaning up
Methods for cleaning up	: Clean spills promptly. Collect the residue by means of a non-combustible absorbent material. Sand. Earth. Vermiculite.
6.4. Reference to other sections	
See Heading 8. Exposure controls and person	al protection.
<b>SECTION 7: Handling and storage</b>	
7.1. Precautions for safe handling	
Precautions for safe handling	<ul> <li>Good ventilation of the workplace required. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Not to be used for any purpose other than the one the product was designed for. Do not breathe gas, fumes, vapour or spray. During the handling of a pallet, you have to take all precaution to avoid a start of a n accident perforation of the aerosol by a fork-lift truck.</li> <li>During the load and unloading of the vehicle, you have to take all the precaution to avoid a fall a aerosol.</li> <li>Do not spray tha aerosol neither close nor towards a flame, a white-hot body, an electrical appliance in runing, DO NOT SMOCKING. Container under pressure. Do not drill or burn even after use. Store and handle as though always a serious potential fire/explosion and health hazard exists.</li> </ul>
Hygiene measures	Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.
7.2. Conditions for safe storage, inclu	ding any incompatibilities
Technical measures	<ul> <li>Keep at temperature not exceeding 50 °C. Proper grounding procedures to avoid static electricity should be followed. Use grounded electrical/mechanical equipment.</li> </ul>
Storage conditions	: Recommendations applicable to warehouses and reserves which are stored aerosols. It is recommended to de-normalize aerosols in stock. The " aerosol " or area must be set with a wire mesh of mesh max 5cm, forming a cage or using walls to avoid splashing the aerosols may ignite rest of the stock. Do not smoke.
	To reduce the risk of falling, should position the pallet closest to the ground. If the packages ar stacked, it should ensure that those lower layers do not crash (risk of leakage through compression). It is recommended : - Ventilate the premises and not store any sprays near heat sources, including sunlight, sparks and open flames - To use the procedure of fire when working. Store in a dry, well ventilated place Protect from freezing.
7.3. Specific end use(s)	
No data available.

#### 8.2. **Exposure controls**

#### Hand protection:

Wear suitable gloves. Choosing the proper glove is a decision that depends not only on the type of material, but also on other quality features, which differ for each manufacturer.

### Eye protection:

Eye protection should only be necessary where liquid could be splashed or sprayed

### Skin and body protection:

Skin protection appropriate to the conditions of use should be provided

### **Respiratory protection:**

No special respiratory protection equipment is recommended under normal conditions of use with adequate ventilation

#### Other information:

Do not eat, drink or smoke during use. Provide local exhaust or general room ventilation.
